

DeliveryBench

State

Order #8 picked up, food not yet in bag
Next: pack before delivery

ReAct + Base + Self Refine (GPT-5)

Refinement

Repeated failure $\Rightarrow$ inspect bag first
Use actual slots, then place items

Action & Result

Failed:

PLACE_IN_BAG(...) ❌ Invalid Action

Recovered:

VIEW_BAG() ✅ $\rightarrow$ PLACE_IN_BAG(valid slots) ✅

Failure is converted into inspection, enabling valid packing and continued delivery.
